

The Best Moments From The Real Housewives Ultimate Girls Trip Panel | Bravocon 2023 | Bravo

How is the townhouse Sonia There's been a lot of speculation rumors At one point it was up it was down it was getting sold Where are we at With the I'm glad you asked that because when it's rented I take it off the market because I don't show the house uh when it's rented So I had a wonderful family that just left a couple of days ago Um So now I feel broke again and then when I rented I feel homeless So doin and I had a really good chit chat this morning morning make up She's like just auction it and move on with your fabulous I just said everybody would love to see I think that's a show just seeing Sonia move out of the sunhouse into this new life here You've raised your daughter You've done a great time And I always say listen you may see me one day when enough is enough Life is about transitioning I was doing my therapy at seven in the morning this morning and who knows it too I love it But no I no auctioning I will sell that the \$34 million house Oh wow that's a show You'll see that on the show She's not In the meantime Sonia's townhouse is available for rental We're putting New York Ok What currently is your relationship status Just looking I am currently dating So you want to expand on that Well meaning that I'm dating I don't have anybody fixed in my life that yeah And actually I've been like flirting away with Captain Jason who's here Copy that copy that he has a huge crush on her Everyone does And I as you know I said I'm I'm in one lane right now because I'm getting it good with the Vikings So I'm not gonna screw it up Kelly We know do your laundry Sadly that was a very heartbreaking thing when I could no longer have endless free cleaning A racket The dry cleaning kept him around a little bit longer than you might have if you have that Yes No But also Jorinda told me this story anyone who left their dresses there you know very expensive gowns and dresses Like after what is it Two years she would get them He would call me over to this room and he'd say take whatever you want because after two years they have to get rid of them and people would leave Valentine Latinos Chanel I mean half of it didn't fit but every once in a while did you find It was remarkable It was fascinating And you know what's so cool I used to go at night and there's something about a dry cleaner at night It was like it was a lie I wanted to do a children's book on it Like her daughter wears them around campus Where what kind of wears your clothes Now We're not father Oh she's gonna kill you and me What do you think the

biggest misconception that the fans had about you during your run on the Real Housewives of New York Because a lot of people have a lot of different things What do you think There are so many misconceptions we don't have time today Um But I think the first one is I'm up here you're down there I'm up here It doesn't mean like I'm better than you It just means like I'm an adult and I am the adult playground and you're in baby playground So like you guys when you're around your friends you tell them I am always up here Don't be down here It's like a higher vibration 100% the high road and the low road And how was it for you to come back Like did you enjoy it Was it easy like riding a bike juggling What was it like Well I'd also been a million dollar listing a couple of times So I have been on television in the past but it was actually it was so nice to just be around Luanne and Sonny who I love and Dinda who I've met so many times and she's such a great woman And Kristen we have mutual friends and you know I work a lot and I'm traveling all over the place Um And so just to be with these women on a trip and be naked and drink rose Wait Whoa whoa whoa whoa Were we naked I mean at one point I was naked the whole time Were you whoa dried humped you Yeah I literally had a rug burn on my leg from that for like three days I do think seriously I had to ask for bastard trac but but nobody travels like the Real Housewives of New York I think we have the best trips We know how to have fun we know how to be real But we also do have a touch of class who's down to see the OG cast of New York go everywhere Absolutely Louanne let me ask you something when you started out doing the Real Housewives of New York First of all did you ever imagine that however many years later you'd be sitting in a ballroom in Las Vegas in front of I think 8500 people Could you ever in your wildest dreams I imagine it would turn into something so big And and the first part of the question is what did you think you were getting yourself into way back when at the exception of New York So we had no idea when we first filmed the show that it would become successful and turn into a housewives franchise I have no idea And you know I never imagined I would be playing myself get to play myself on television or get to be on stages like this like for Bravo Con um and also have a cabaret career on these kind of stages now you know so it's an absolute dream come true I could have never imagined this show becoming as big as it did become Ok Yeah No I mean who could imagine right Who could have ever I think what's beautiful about these girls They really are who they what you see on TV is kind of who we really are off TV You could there's days that I'm with Lou or I'm with so or Kelly and I'm like this could be on TV

right now I mean you live in L A so I'm not with you that much What were your guys' jobs and occupations before you started the show Nice question Let's start with this Kelly Start with you real quick and we'll go down the line I mean everybody no one knows like what they do for a living That was a funny thing and everyone's like does she actually work or does like money fall from the tree Um As you guys know I'm working in real estate right now I am a writer I've written seven books Um I have my MB A Um I'm licensed in New York the Hamptons California and Florida Um I've done a lot of what about brands And I also started L accessories in Gotham Magazine So well Well I have a fashion background I went to fit and spent a lot of time in philanthropy and I still do but I do have my collection Sonia by Sonia Morgan It's in Walmart and I have my Sonia Sangria it's in Texas at HEV and free shipping And also I have my comedy claque tour Um So where am I next Toronto San Diego Pennsylvania We're not sure where where am I next San Diego Toronto And I'm keeping track of my you know what people show up Yours is a bigger schedule but I people show up and I go there a little different Were you doing before Real Housewives of New York Um Before the show I used to work in Italian television actually when I went to Europe as a model and then I got married to the Count and lived in Switzerland And then when I came back that's when the house fights kind of came along So ok Doda well before that I was I worked in fashion I worked for Liz Claiborne which I was part of the Macy's Buyer program And then Liz Claiborne which was very big in the eighties Remember that And then I moved to London and was married to Hannah's dad And then I moved back from after living there for 10 years I moved back to New York City and married Richard and unfortunately Richard is no longer with us And then about a year and a half later I joined the Housewives and I was in real estate as well Believe it or not That's how I was a I I did an article in the New Yorker saying if I knew I was going to live in that town I would have made him get the bigger one I get it So before the show I modeled I'm still modeling and then full time housewife and soccer mom still If anybody lives in Southern California you'll see me on the soccer field
