

The Best Moments From The Real Housewives of New Jersey Panel (Part 2) | BravoCon 2023 | Bravo

What's going on with your daughters Um my daughters are doing amazing and I'm missing parents weekend in University of Michigan where Gabriella goes because of you guys So um I wanted to be here with you guys So Gm Melania and uh my stepson lo went to go see Gabrielle at the University of Michigan because it's parents weekend So we you know and and lo there like I mentioned the Brady Bunch like like have the daughters hazed You like being a step parent being a stepfather stepmother could be tough Have the daughters hazed you they seem they seem to love you and you guys seem to get along What has that been like Because you have your your own two sons and now you got daughters It's been really it's been really um interesting and and fun and cool and and um open So we've all leaned into our relationships our love for each other We've all grown together a lot of time to kind of like learn and know about each other So it's been really good My sons are in a really good place for Teresa's daughters vice versa Ok cool Um uh it's it made news because everything you do Teresa makes news that you re followed Your nemesis Kim D the infamous Kim D on Instagram What changed this And have you guys spoken to And is Kim D on the horizon to come back Would Kim be ever be allowed back on the show Guys You guys could chime in But what are you getting along with Kimchi Kim D coffee What's happening Can I just followed her We haven't talked yet so we'll see what happens So it was like a soft like soft possibly Do you ever see Kim D coming back on the show Never say never say never say never in anything in life OK I made up with Jacqueline after six years Jacqueline Lorita from season one Do you think Jacqueline could come back No she's living in California now She's no longer a real housewife Louie Um on a scale of 1 to 10 Uh uh the no nos pajamas thing I think it was totally misconstrued It was it was it was do you want to I was trying to be endearing break it down once and for all And so we can move on from the from the pa you know what I was Uh It's what you see on camera is not all that's going on in real life So um I continued to try to bond with Joe and in in a lot of different ways and layers and I guess that came out of my mouth because we had experienced the moment when Teresa is moving out of her house and she had given my father some old shirts and my father said in honor of your dad everything was brand new worn yet Yes it was uh it was just it's you

know it was an endearing comment but it depends on who you're saying it to you guys got matching tattoos Are we thinking about like you're in Vegas This is a place where bad decisions tattoo decisions happen Are you thinking about maybe getting some more ink Not at the moment and just to skip down to Dolores and Paul would you guys ever consider getting matching tattoos If so what I think I'll get my social security tattooed on her ass Yeah just so everybody knows who she belongs to Ok OK Well I was going to get to this later Paulie Uh uh but you you you're saying this I have to ask because if I didn't ask somebody else would are you guys engaged Are you getting engaged Are you getting married Vegas is a place to get married What is the current relationship of your engagement Do you have a surprise or something in your pocket today Where are you guys at Oh you want me to answer there or you want Dolores We want to hear from you Paul Thanks Mike So yeah so obviously we're talking about a future I'd be a silly person if I was not Dolores means everything to me since I've met her She may be a better person and uh yeah but the future is looking bright Uh ok so the other big the other big question in the room is uh my divorce is pretty much close finalized So uh yes thank you Thank you And so yeah when that's all done Ok And when we get to that part um that's when the next steps are you all right Paul Because you know the longer you wait the bigger the ring's gotta be like you only hurt We got time Frank didn't make it easy either He just he just got yeah let's give it up for Frank Frank Frank Frankie Guns finally got engaged for you and Bill the good doctor Bill Like you know I never ever like seeing any couples go through anything that's like you know serious on television especially when you have uh you know kids and you guys have to have such a beautiful family Uh How how hard was that You know while you were in like the middle of a a bravo storm playing out in TV because it's hard enough to go through real things privately But how hard was that for you guys Uh you know dealing with that and publicly I mean for me going through it publicly was it was ok because I got to show everybody that marriages can survive when you have lived through something that could traumatize you It's all about forgiveness and you know seeing the bigger picture what was hard for me is that you know emotionally I wasn't able to control my emotions while we were filming And um you know I was breaking down a lot as you guys saw But one of the reasons why I decided to share my story is because there's power in the story I mean I had gotten one message that really stuck with me about it because I had gotten so many messages from people saying my husband cheated on me too and I didn't tell

anybody and I'm embarrassed and I don't know what to do So this is the thing everybody's gotta do what works for them People say I can't be with someone that I can't trust I trust him 100% So it's not about trust it's about building the trust back right And I got one message from somebody that said I I got a divorce from my husband because I thought that that's what everybody expected me to do and I should have stayed with him He was a good guy and now I'm alone and I regret doing that so power to you that you were stayed for your family 100% And I know everybody likes to see you guys uh you know thriving and doing well I think it was harder for Bill Bill Of course I'm the one who fell and you know thank you for keeping me Thank you for keeping me I love you You know it's not easy to make mistakes in life and it's harder to kind of live through it sometimes Um you know it helped that it was in the past and you know fortunately our kids were older and they understood that and you know I try to own up to it so it's ok to make mistakes and hopefully nobody has to make mistakes like that Exactly Moving down to the goddess of New Jersey Uh Dolores Catania uh uh Dolores I don't know if a lot you have you don't talk about it much Uh uh It's kind of dropped in and out and you told me when we were filming watch what happens like you worked in the court prison system like you were I was a sheriff's officer I transported prisoners I worked in the Yeah which is crazy because when you told me that I was like holy shit And I was also like I'm never I never want to be on the wrong side of Dolores Catania because she could kick my ass But Doris is it harder wrangling prisoners or housewives housewives Hands down hands down How you didn't hesitate for that one No you know I always looked up to my dad He was the chief of police I always wanted to be like him and be a cop So her dad is right there I met him I wanted to be And uh but yeah that really prepared me for a lot of the things that I've done in my life since part of it is uh diffusing a situation that can maybe escalate There is like levels of force you know and there's all different types of things that I learned during that time that I've used in my life since Got you Uh how are your kids doing How are they feeling How are they feeling about their dad Just got engaged Frankie Gun so happy for him Frankie Guns got engaged and um she's a nice girl She makes him happy and that's what we all want for him and my kids are happy you know they're doing they're living their best life She's a veterinarian He works in finance they're doing what they always wanted to do They're right now at uh Alabama football game together and that's what we live for to see them together and stay close Ok Um And uh you know like I said you you you and

Teresa have known each other for a long time Do do you ever feel like you know I asked you do you feel like you have to pick sides Do you ever like is it like you know team Teresa team Joey G Like is it is it is it hard for you doing that again No I never felt that way because I I still look at them as the brother and sister that I knew I knew them growing up I knew Jo was close with my sister So I knew how much she loved her brother And that's something that I will remember and that's the way I treat them as So to me they're still family and it will always be that to me Has it been hard to not pick a side and not be somebody up that was hurting my friend But the other person is my friend also So something you taught me you can support the friend but not the beef You don't have to support the beef
